New Forester Hired

We are pleased to announce that Gordon Mouw has been hired as the South District Forester. He will be covering the area south of Alpena. Gordy graduated from Michigan Tech and comes to us with 10 years of forestry experience in the U.P. We are excited to have Gordy on board!

We're on the Web!

Our new web site is up and running! Check it out at www.alpenaforestry.com. The site explains our Forest Management Program, our services, updates on forest health, forestry education, and links. One of pages explains the Alpena Plant, our products, and includes a link to Louisiana Pacific's web site that describes our paneling products.

5th Grade School Talks

We just finished our 12th year of forestry presentations to area elementary schools. We visited 33 classrooms and reached approximately 800 students with facts about Michigan's forests. These presentations are a highlight for us – we not only have a chance to talk to students about forestry, but we also distributed spruce seedlings to each student that they took home to plant.
