New Forester

Lee Grasinski started as the South District Forester on March 21, 2005. Lee joins us with 20 years experience as a Procurement forester and County Soil District forester. His recent experience working with landowners and loggers is a real plus for DPI. Lee will be relocating to the Mio/Fairview area in the near future.

Alpena News – Forestry Today

Enclosed is a copy of the Alpena News supplement - FORESTRY TODAY – that was published last week. In it are several good articles on subjects including the Emerald Ash Borer, forestry benefits, and woods roads. Note our ad on the back page!

Food Plot Planting

This is the time of the year that many landowners start thinking of creating or maintaining food plots for wildlife. We have several good publications that deal with the how, when, why and what to plant. Give us a call and we'll send you copies.
